SEO & Google Ads Plan

Winning Johannesburg searches for invoice books and paper

Keywords | Competitors | 7-day Ads plan | SEO roadmap

Prepared for: Extra Printers, Johannesburg | extraprinters.co.za

Prepared: November 2026 | Website built on the SWIFTDNA platform

Budgets and click costs are planning estimates. Confirm live figures in Google Keyword Planner before launch.

1. The plan on one page

Extra Printers wants to **own a small radius around Johannesburg** for two money searches: **invoice books** and **paper sales**. National online printers spread their budget across the whole country. A local shop that answers fast, offers collection and is visible on the Google map can beat them on these searches.

Goal	How
Show up on Google Maps (the 'map pack')	Verified Google Business Profile with the categories, products and photos listed in section 5, plus a steady flow of reviews
Rank organically for invoice books + paper	Dedicated Johannesburg landing pages (already built), product pages with schema, and two AI-written guides a week
Get quote requests from day 1	7-day Google Ads launch campaign in a 25–35 km radius, tracked to quote requests and WhatsApp clicks
Convert visitors	Quote cart with artwork upload, WhatsApp on every product, design for R300, answer quotes within 2 hours

Recommended launch budget

R480 per day for 7 days = R3 360 (Invoice Books R250, Paper R200, Brand R30). Expected result: roughly **220–420 clicks and 11–33 quote requests or WhatsApp chats**. These numbers rest on the assumptions in section 4; they become real numbers after the first 7 days.

What the website already does for SEO

- Landing pages: **/invoice-books-johannesburg**, **/paper-supplier-johannesburg**, NCR paper, till rolls, business cards, flyers and pull-up banners, each with an FAQ.
- Structured data Google reads: LocalBusiness (address, hours, service areas), Product, FAQ and Breadcrumbs on every relevant page.
- XML sitemap, clean URLs (/product/invoice-books), fast WebP images, mobile-first design, https and canonical tags.
- Tracking ready: GA4, Google Ads conversions (quote request + WhatsApp click), Meta Pixel and Conversions API.
- Fresh content: an AI writer publishes printing guides on the keyword list below, linked to the matching product.

2. Keywords

Priority 1 and 2 are the focus. Use **phrase** ["…"] and **exact** [[…]] match in Ads so the budget isn't wasted on loosely related searches. Search volumes and live bid ranges must be read from Google Keyword Planner (Tools → Keyword Planner → location Johannesburg + 35 km).

Priority 1: Invoice books (Ads + SEO)

Keyword	Search intent	Match	Landing page
invoice books johannesburg	Ready to order locally	Exact + phrase	/invoice-books-johannesburg
invoice book printing	Ready to order	Phrase	/invoice-books-johannesburg
duplicate invoice books	Ready to order (2-part)	Phrase	/product/invoice-books
triplicate invoice books	Ready to order (3-part)	Phrase	/product/invoice-books
ncr books printing	Ready to order	Phrase	/product/invoice-books
receipt books printing	Ready to order	Phrase	/product/invoice-books
quotation books / delivery note books	Ready to order	Phrase	/product/invoice-books
custom invoice books with logo	Ready to order	Phrase	/product/invoice-books
invoice books near me	Local, high intent	Phrase	/invoice-books-johannesburg

Priority 2: Paper sales (Ads + SEO)

Keyword	Search intent	Match	Landing page
paper supplier johannesburg	Buyer looking for a supplier	Exact + phrase	/paper-supplier-johannesburg
ncr paper / carbonless paper	Product search	Phrase	/ncr-paper-johannesburg
a4 gloss paper / a3 gloss paper	Product search	Phrase	/product/gloss-paper
matte paper a4 / bond paper bulk	Product search	Phrase	/product/matte-paper
sticker paper a4	Product search	Phrase	/product/sticker-paper
business card paper 350gsm	Product search	Phrase	/product/business-card-paper

a1 / a2 paper johannesburg	Product search	Phrase	/paper-supplier-johannesburg

Priority 3: Supporting (SEO first, Ads later)

printing company johannesburg | printers near me | business cards johannesburg | flyer printing johannesburg | pull up banners johannesburg | gazebo printing | branded t-shirts johannesburg | embroidery johannesburg | calendar printing | company profile printing | graphic design R300

Negative keywords (add on day 1)

free, template, download, pdf, word, excel, how to, diy, jobs, vacancy, vacancies, salary, course, printer repair, ink, toner, cartridge, hp, canon, epson, wallpaper, toilet paper, paper bags, newspaper, origami, invoice software, invoice app, invoice template, generator, sage, xero, quickbooks

3. Competitors: who leads and why

We checked both names the client gave us on 9 November 2026. **Printulu** is a national online printer. **flyers.co.za** is not a printer: the site belongs to **CitiNet Transport & Logistics** (Germiston), a trucking company. It cannot compete for print searches, though its address and domain name are a reminder that exact-match domains alone do not win. The table compares what each site offers. It does not claim ranking positions, which need a rank-tracking tool to measure.

Factor	Printulu	flyers.co.za	Extra Printers
What it is	National online printer ("South Africa's first online printing company", own claim)	Trucking & logistics company (CitiNet), est. 1989	Johannesburg paper supplier + printer + signage
Instant online prices	Yes, real-time price calculator	No (quote by email)	Quote-based; fixed R300 design price. Add 'from' prices to win clicks
Invoice books / paper	Not visible on the homepage	No	**Yes, core focus**: invoice books A6–A3, 8 paper types A1–A4, till rolls
Delivery	Free delivery within SA + express option	Freight across SA	Collect in Johannesburg or Gauteng delivery
Artwork help	Artwork guidelines, templates, video help	n/a	Guidelines page, upload in cart, design for R300
Content for SEO	Blog + help centre	4-question FAQ	7 local landing pages, FAQ schema, AI blog (2 a week)
Local signals	No Johannesburg location pages seen	Germiston address	**Johannesburg pages, LocalBusiness schema, map-pack ready**
Trust	Reprint guarantee, PayFast, press mentions	B-BBEE level 2, 30+ years	Add: Google reviews, reprint promise, real job photos
Instant contact	Phone / email / help centre	Email quote	**WhatsApp on every product + AI chat bot**

Why Printulu is strong on broad print keywords

- **Brand age and links:** years of press coverage and links from other sites give the domain authority Google trusts.
- **Instant pricing:** searchers can see a price without waiting, which wins clicks and conversions on generic terms like "business cards".
- **Free national delivery:** one site serves the whole country, so it can target every city at once.
- **Helpful content:** blog, help centre, templates and artwork guidance keep visitors on the site and earn links.

How Extra Printers wins locally

- **Go narrow, not national:** invoice books + paper in a 25–35 km radius, where a nearby supplier with collection beats a courier wait.
- **Own the map pack:** for "near me" and "Johannesburg" searches, Google shows 3 local businesses above the organic results. Printulu has no local-shop advantage there.
- **Reviews velocity:** ask every customer for a Google review (the link is in every quote email). Aim for 25 reviews in 90 days.
- **Speed:** answer every quote within 2 hours and use WhatsApp. Fast replies win print jobs.
- **Show 'from' prices** on invoice books and paper packs as soon as the price list is ready, to match Printulu's instant-price appeal.

4. Google Ads: 7-day launch campaign

Two Search campaigns plus a small brand campaign, each with its own budget so invoice books and paper never compete for the same money.

Setting	Invoice Books campaign	Paper Sales campaign	Brand campaign
Objective / type	Leads / Search	Leads / Search	Leads / Search
Location	Johannesburg, radius **25 km**	Johannesburg, radius **35 km**	Gauteng
Location option	Presence: people in or regularly in the area	Presence	Presence
Schedule	Mon–Fri 07:00–18:00, Sat 08:00–13:00	Mon–Sat 07:00–18:00	All hours
Bidding	Maximise conversions (switch to target CPA after 30 conversions)	Maximise conversions	Maximise clicks, max CPC R5
Ad groups	Invoice books · NCR/receipt books · Quotation & delivery books	Paper types · NCR/carbonless · Till rolls · Sticker & card	Extra Printers
Assets	Sitelinks, call, location (Business Profile), callouts	Sitelinks, call, location, price assets	Sitelinks
Conversions	Quote request (R250) + WhatsApp click (R100)	Quote request + WhatsApp click	Same

Budget options for the 7 days

Option	Per day	7 days	Split per day	Estimated clicks*	Estimated leads*
Starter	R250	R1 750	Invoice R140 · Paper R100 · Brand R10	115–220	6–17
Recommended	**R480**	**R3 360**	Invoice R250 · Paper R200 · Brand R30	220–420	11–33
Growth	R800	R5 600	Invoice R420 · Paper R340 · Brand R40	370–700	19–56

* Assumptions: an average cost per click of R8–R15 for local invoice-book and paper searches, and 5–8% of clicks becoming a quote request or WhatsApp chat. Published South African figures range from about R5 for low-competition terms to over R150 for competitive ones (sources in section 7), so confirm the live bid range in Keyword Planner and adjust on day 3.

Day by day

Day	Action
Before day 1	Business Profile verified, GA4 + conversions recording (send a test quote), negative keywords added, ads approved
Day 1–2	Let it run. Check that conversions record and that ads show (Ads Preview tool, location Johannesburg)
Day 3	Search terms report: add new negatives, move winning searches into exact match, pause keywords with spend and no clicks
Day 4–5	Shift budget toward the campaign with the cheaper cost per lead. Check that quotes are answered within 2 hours
Day 6	Review ad strength, swap the weakest headlines, add price assets if prices are confirmed
Day 7	Report: spend, clicks, cost per click, leads, cost per lead, jobs won. Decide the monthly budget (suggested: keep the best campaign always on)

Ad copy (responsive search ads)

5. SEO roadmap: first 90 days

When	Action	Who
Week 1	Google Business Profile: primary category **Printing service**; add Paper store, Sign shop, Screen printer, Embroidery service, Graphic designer, Stationery store. Description, hours, 10+ real photos, products (invoice books, A4 paper, NCR paper, business cards, banners)	Client
Week 1	Search Console verified, sitemap submitted, request indexing for the home page and the 2 main landing pages. GA4 linked to Search Console and Ads	Client / us
Week 1	Business details in Admin → Settings identical to the Business Profile (name, address, phone)	Client
Week 2	Product photos uploaded for every product (mockups are already done for 6). Add 'from' prices on invoice books and paper packs	Client
Week 2–4	Directory listings with the same name, address and phone: Yellow Pages SA, Brabys, Cylex, Hotfrog, Snupit, SA Business Directory, Bing Places, Apple Business Connect	Us
Ongoing	Ask every customer for a Google review (link in each quote email). Reply to every review. Target 25 reviews in 90 days	Client
Ongoing	2 AI-written guides a week from the keyword list (check each one). Post 2–3 job photos a week to the Business Profile and Facebook/Instagram (auto-poster)	Site + client
Month 2	Search Console → Performance: find searches with impressions but few clicks and improve those pages' titles. Add a landing page for any new money keyword	Us
Month 3	Earn local links: suppliers, business chambers, schools and churches you print for, local news about the business	Client / us

6. What to measure

Metric	Where	Target after 90 days
Map-pack position for "invoice books johannesburg"	Search on a phone in Johannesburg / Business Profile insights	Top 3
Organic clicks	Search Console → Performance	Growing every month
Quote requests + WhatsApp clicks	Admin dashboard, GA4 key events, Google Ads conversions	Cost per lead under R120

Metric	Where	Target after 90 days
Google reviews	Business Profile	25+, average 4.7+
Quote reply time	Admin → Quotes	Under 2 hours in business hours
